

Mind Communications

12th February 2004

To Whomsoever it May Concern

Ms. Dorota Crates has been associated with us as a Polish Translator since 2003. She is our Official empanelled Translator and is certified by us for High Quality IT and Software Translations.

To cite an example of her quality in Polish Translations would be the grand success of the “ **Test Cases Scenario**” Translation assignment which was a complex document and required for the Translator to be very well versed in IT and other nuances of the Software Development Life Cycle including a thorough knowledge of Software Testing Processes.

We primarily handle IT and Software related Translations and for any such Polish Translation our first choice will always be Ms. Dorota Crates.

Her commitment to high volume translation and turnaround time deserve a mention as well.

We are very pleased to be offering this reference and wish her the very best in all her endeavors.

Regards,

Sridhar M Sampath
